PROJECTS

InterWin – Interview Practice Platform

(October - ongoing)

- Built a platform for students to take mock interviews with industry professionals, implementing role-based dashboards and secure authentication.
- Developed automated interview slot matching and integrated payment gateway, enabling partial payment to interviewers.
- Optimized backend using Django ORM and PostgreSQL, improving dashboard load time by 40% and ensuring smooth user experience.
- Tech stack : Python , Django , Postgresql.

Lexical Analyzer

(June - Sept)

- Implemented DFA-based scanning to identify mnemonics, registers, labels, constants, and directives.
- Designed token structure including type, lexeme, and source position for precise analysis.
- Tech stack : C , LINUX.

Assembler

(June - Sept)

- Implemented my own Assembler for an assembly program, it calculates SIB ,MODR/M ,Symbol table.
- Designed token structure including type, lexeme, and source position for precise analysis.
- Tech stack : C , LINUX.

TECHNICAL SKILLS

Languages: C, Python, Java, SQL

Web: HTML5, CSS3, JavaScript, Django

Database: PostgreSQL

Tools&Platforms: Git, Linux, VS Code

Core Competency: Data Structures & Algorithms, Object-Oriented Programming

EDUCATION

Master of Computer Application (MCA) 2024–2026

Department of Computer Science, Savitribai Phule Pune University, Pune

CGPA: 7.60 / 10

EXTRA-CURRICULAR ACTIVITIES

- **Placement Cell Member (2025 – Present)** Worked collaboratively with the placement cell team and acted as a bridge between companies and students during recruitment-related activities.
- **Competitive Programming** Solved **125+ DSA problems** on GeeksforGeeks and LeetCode. LeetCode Profile: [link](#)
