PLACEMENT POLICY 2025-26

Below is the placement policy that is applicable for the Placement Drive 2025-26:

Companies are divided into three bands as per the package provided by the company:

- **Band A:** ≥ 6.5 LPA
- **Band B:** $4.5 \leq LPA < 6.5$
- **Band C:** < 4.5 LPA

COMMON POLICIES

- MCA students can start their internship from 1st JAN 2026.
- MSC students can start their internship from 1st JUNE 2026.
- Companies available to us at a time will be slotted as per the package and vacancies offered. However, as the drive is scheduled to continue throughout the semester, a Band A company might come after a Band B/C company.
- The placement process may be held either virtually or physically. Any changes will be notified in advance.
- If a student appears for the first round of the company, it is mandatory to appear for all the further rounds for which he/she is selected. Failure to comply will result in being barred from the placement process.
- If a student is selected by a company and decides to reject the offer, the student must officially inform the concerned company, the Placement Cell, and the Placement Coordinator via email and phone call.
- No student can join a company while their college course is ongoing.
- Any student caught using unfair means during any round of the selection process will be barred from the placement process.
- Requests will not be entertained if the format and deadline of requested documents (e.g. resume naming convention, file format) are not followed.

- The Placement Cell coordinator may take decisions at run time which might overrule the mentioned policies.
- The same policies apply to companies that join through the SPPU Central Placement Cell.

There are two types of companies:

- Product-based
- Service-based/Consultancies
